TRANSLATION JOURNAL SUBSCRIPTION INFORMATION

The issues of ten of the journals translated from the Russian and published by the American Institute of Physics are dated 6 months after the Russian originals, since several months are required for delivery of the Russian issues, translation and printing. These journals are: Soviet Physics – JETP, Soviet Physics – SOLID STATE, Soviet Physics – TECHNICAL PHYSICS, Soviet Physics – ACOUSTICS, Soviet Physics – DOKLADY, Soviet Physics – CRYSTALLOGRAPHY, Soviet Physics – USPEKHI, SOVIET ASTRONOMY – AJ, SOVIET JOURNAL OF NUCLEAR PHYSICS, and Soviet Physics – SEMICONDUCTORS. Subscriptions begin with July and end with June, corresponding to the calendar year for the Russian originals, and are accepted on an annual basis only. Unless specifically instructed to defer the start of the subscription to the following July, any order received up to 30 April will be considered as covering the period from the previous July through the following June and all issues for this period will be sent to the subscriber.

JETP LETTERS and two journals published for the Optical Society of America, OPTICS AND SPECTROSCOPY and SOVIET JOURNAL OF OPTICAL TECHNOLOGY, carry the same dates as the Russian originals. For these three journals, orders may be placed for annual subscriptions starting with either January or July.

Descriptive information about all of these journals is published regularly on the back covers of many of them. Orders and inquiries should be addressed to:
